SPEECH STATION

(Software Technology)

COCHLEAR HABILITATOR

Speech Generating Device (SGD)

An Amazing Technology (software) for Diagnostics & Therapy for Clinics & Home Training Programme For Parents the one & only For the first time in the World of Communication Sciences Industry

Message from Chief Audiologist & Speech Pathologist Researcher & Developers Software Technologies

Greetings of The Day!

Ours Is The World That Is Ruled By World Of Sounds Whether We "Hear" Or We "Speak". It Is The Duty Of This Modern Society To Bridge The Gap Between The Outsider And The World Full Of Sounds.

Danaah Medical Technology Pvt. Ltd. Is A Software Development Company Which Builds Software Related To Speech And Hearing Issues. We Are First In The World Who Developed Products Related To Speech And Hearing Where It Helps The Children & Adults Who Are Suffering From Speech & Hearing Related Issues.

People Especially Children With Speech & Hearing Disorders Are Very Big In Numbers. Speech And Language Impairments Require Long-term Attention, Generally Remain Manageable. To Overcome This, We Have Brought A Revolutionized Approach To Communication, Hearing & Speech Disorders With Researched Therapy Applications, Which Are Software Based To Strengthen Service Delivery Including Rehabilitation & Hearing Screening & Training.

In Present Scenario When Stress Levels Are High, Anxiety Is Increasing, Fierce Competition In Every Field Is Leading To Less-peace-of-mind; Here "experience Of Audiologists" & Speech Pathologist" Needs To Be Supplemented By "specialized Treatment & Testing Software" To Get Fast & Stable Results.

Specialized Speech Therapy, Voice Assessment, Autism, Hearing And Tinnitus Related Softwares For Treatment And Management Of Issues Related To Following –

- Speech Voice Language Software
- Speech Therapy & Special Education Laboratory
- Speech Science Laboratory
- Cognitive Speech Laboratory
- Auditory Verbal & Listening Laboratory
- Cochlear Habilitation Software
- Cochlear Implantees Total Rehabilitation
- Tinnitus Assessment & Diagnostics
- Tinnitus Trio Management & Treatment
- 50 Years of Prime National & International Experience

We Believe In Respect For Human Dignity & Esteem, Empowerment, Empathy & Respect For Personal

Text to Speech

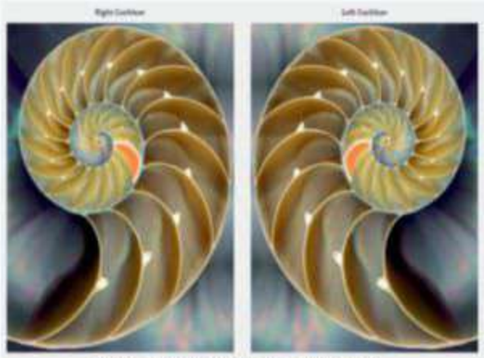

YOU SPEAK & THE COMPUTER RESPONDS

Amazing Technology...!

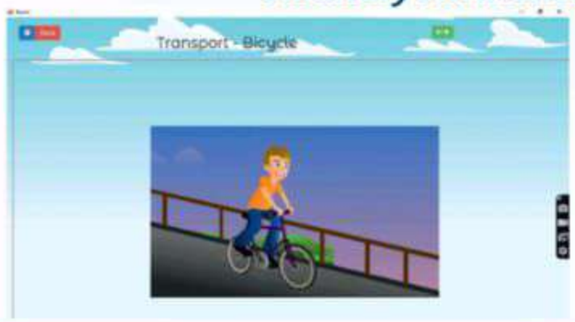

Cochlear Habilitator Virtual Cochlea

After centuries darkness in the Cochlea has been illuminated

Cochlear Habilitator demonstrates an virtual cochlea with frequencies from 250 Hz to 12000 Hz calibrated pure tones.It can be used through speakers & is open for right side, left side, or both ears, these Frequencies are used for a total Auditory rehabilitation Programme delivered with proper seating the auditory skills are mapped by saving the frequency contour on the program panels.

Auditory Awareness & Discrimination

Cochlear Habilitator Statistics Analyzer

- Emulates session with results.
- Has date wise sessions results.
- Has average growth.
- Depicts values on Bar diagram
- Depicts values in Pie diagram
- Depicts values in Line diagram

Overall performance can be streamlined for performance Mapping & the Efficient & Efficacy use of the Devices - Hearing aids & Cochlear Implants. Therapy for Prelingual & Post lingual children & adults & Can be used where focus for Auditory skills are required in any client that need support. Cochlear Habilitator is an Auditory Verbal Therapy Program with Statistics.
